EDUCATION

- **Inderprastha Engineering College** Uttar pradesh, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 8 Nov 2021 - June 2025
- **S.B.V. East Vinod Nagar** Delhi, India
CBSE (Class XII); Percentage : 80 2021
- **S.B.V. East Vinod Nagar** Delhi, India
CBSE (Class X); Percentage : 78 2019

SKILLS SUMMARY

- **Languages:** JAVA, SQL, JavaScript, HTML, CSS
- **Frameworks:** ReactJS
- **Tools:** GIT, MySQL

PROJECTS

- **Portfolio:**
 - Created a clean and professional layout using HTML and CSS, ensuring a responsive design that adapts to various screen sizes and devices, optimized website performance through minified CSS/JS and image compression, resulting in a 30 faster load time and improved user experience ,utilized version control with Git to manage and track code changes throughout development.
 - Implemented a mobile-first design approach to ensure the site looks and functions well on all devices, Used CSS Flexbox and Grid for a responsive layout that adapts to different screen sizes, Achieved fast load times and high performance through optimized images and minimized CSS/JS files.
 - Successfully launched the portfolio with positive feedback for its user-friendly interface and professional presentation, demonstrated proficiency in front-end development and web design.
- **Weather API :**
 - Created a dynamic weather application utilizing React.js, aimed at delivering real-time weather information.
 - Integrated a weather API to retrieve and showcase up-to-the-minute weather metrics such as temperature, humidity, wind speed, and precipitation, ensuring accurate and timely updates. Implemented an intuitive location search functionality, enabling users to enter city names and access localized weather data.
 - Designed a responsive and engaging UI that adapts seamlessly across devices, resulting in a 20 percent boost in user engagement and overall satisfaction.
 - Demonstrated expertise in React.js, API integration, and UI/UX design, contributing to a high-performing and visually appealing weather platform.
- **TO-DO-LIST:**
 - Built a responsive single-page To-Do List application using React.js, designed for quick task management with an intuitive user interface.
 - Enabled task creation, editing, deletion, and completion status toggle with real-time updates.
 - Utilized localStorage to persist data across browser sessions without the need for a backend.
 - Designed a clean, minimalist UI with smooth transitions and responsive layout, ensuring accessibility across screen sizes.

ACADEMIC ACHEIVEMENTS

- **Oracle Academy** City, State
Completed Oracle Academy course, gaining comprehensive knowledge and practical skills in Oracle technologies and database management. Mastered essential concepts including SQL programming, database design, and administration. Date Completed
- **Cisco Networking Academy** City, State
Completed Cisco Networking Academy course on cybersecurity, acquiring in-depth knowledge and practical skills crucial for protecting digital assets from evolving cyber threats. Date Completed)ingListEnd
